# Technical Information

## MATERIAL

All holds are made with a PU material that is optimized for strength and flexibility.  
All holds are produced by our manufacturer BlocSyndicate in Germany.

## WEIGHT

Holds that are bigger than stated as a S or M have a hollow back to minimize the weight of the holdwhile maintaining its integrity.

## FIXATION

To make the positioning of the climbing holds more flexible we offer two types of fixation. The first type is the classic fixation with a M10 bolt and one hole for screw, which is recommendable in order to avoid rotation of the hold. The second type of fixation is with screws only.
